

Weekly report (2018-01-08 ----- 2018-01-14)

Jan 14th, 2018, 19:49 pm

1. Progress

Table 1. Progress

Tasks	IN PROGRESS	Date
dimension reduction	LargeVis	1.17
statistic charts survey	Line chart	--
Master thesis	Community detection	--
*2Vec survey		2.20

2. Work

Collected the papers related with line chart and its enhancements and wrote the outline of line chart. Kept in touch with Prof. Xia Jiazhi and got a lot of suggestions from him. I will accelerate the progress of the part of line chart.

Added some codes into the LargeVis and made it can compare with our projects in the same condition.

Collaborated with Jiacheng, Yuhui, Rusheng and I wrote the clustering and community detection parts of the master thesis. We will complete this thesis as soon as possible.
